Which 10 categories have the lowest reviews?

Are bad reviews caused by delivery only?

Delivery problem (right side): Audio — ~12% late, ~22% poor reviews

Product problem (high up, but low late %): Men's fashion — ~5% late, ~26% poor reviews Office furniture — ~8% late, ~23% poor reviews Landline telephony — ~5% late, ~19% poor reviews

Takeaway: Late delivery explains some bad reviews, but the worst categories are bad despite fair delivery. Fixing logistics alone won't fix them.

Platform late rate: 6.8%. Item-level analysis; categories with 100+ orders.
